	Fuel tank runtime = approx. 25 hours

PART ECO

Option from **groundhog**

The latest concept in 12V technology delivers power to the LED lighting and USB sockets without the need for the generator to be running, resulting in **lower CO₂ emissions** and **reduced generator runtime**.

Part Eco units are fitted with 12V LED lighting complete with PIR sensors to automatically sense movement, turning lights on or off as required.

Situated in the canteen, toilet and generator room, this feature gives owners and end users savings by way of **reduced fuel usage**, **reduction in generator servicing**, **longer generator life**, **fewer breakdowns** and **reduced noise pollution**.

Featuring **BATTERY POWERED** LED lighting & USB sockets

Battery powered LED lighting

Battery powered 12V socket and USB
